

Mounting Challenge headrest on aluminium seat

1. Make 2 x 2 holes with a 5mm drill in the pre-centered holes on both sides of the seat
3. Place the \angle shaped brackets. Do not tight the nuts yet.
4. Align the brackets by sliding in the slot holes.
5. Tight up the nuts.

6. Pre-align the headrest by adjusting the upper lock-rings
 7. Place the lower lockrings with a slight tension to the bracket.
- Tip: press the bracket a few mm up with your thumb to create the tension.
8. Adjust the headrest just under your helmet.
